

Technical data sheet

Printing date 07/04/2021, PD

Code; Name: SD328; Coffee Flavour
Olfactory note: coffee characteristic
Colour and appearance: brown, liquid

Legal Status: Flavour

Composition (acc. to reg. 1334/2008/EC): Flavouring preparations, flavouring substances, solvents:
monopropylene glycol, triacetin, ethyl alcohol.**highly concentrated food grade product, not suitable for direct consumption****1. Physicochemical characteristics**

<i>Parameter</i>	<i>Range</i>
Relative Density 20/4 °C	1,005 – 1,030
Refractive index 20 °C	1,385 – 1,420
Approximate proof	8 % V/V
Flash point	38 °C
Caffeine	≤ 0,5 %

2. Storage

To be stored in a cool, dry place in tightly closed containers preferably full. Protect from light. When stored for more than 12 months, quality should be checked before use.

3. Handling

According to IFRA Code of practice

4. Recommended uses

Multi uses

5. Caution

Concentrated product for industrial use avoid contact with eyes and mucous. Do not drink.

6. Note

This data is based on information believed to be reliable. The values were determined immediately after manufacture of the product. Alterations can result due to the improper transport and/or improper storage. The certificate does not release the user from the responsibility of undertaking own tests of the characteristics of the product and its suitability in the intended application.
